

Instructions for PowerSchool:

Below is additional information that may be helpful for you as you use PowerSchool.

1. The parent/guardian account enables you to set up E-mail notifications for assignments and attendance on a schedule you select. The student account does not have this feature.
2. Your home screen includes attendance records for each course, course and teacher name, and letter/percentage grade for each course and grading period.
3. Click on the grade value shown to see teacher comments, a course description, and a list of past, present and future assignments. If there is no grade showing yet for a course, click on the dashes where the grade would normally appear to see assignments that have been entered but not yet graded.
4. If a teacher has included additional details for an assignment in the list, the assignment name will link to that information.
5. If a teacher has added a comment to an assignment's grade, the score for that assignment will link to that information. Comments can include designations such as late or missing work, or other notes from the teacher about the grade.
6. PowerSchool is a "real time" information system for students and families. As soon as a teacher enters attendance, grade or homework information, it is available online. Changes and corrections can and will happen for both attendance and grades, and online information should not be treated as an official transcript. If there appears to be incorrect grade information, please contact the teacher of the affected course directly. Attendance questions should be directed to Elaine Gehman at ekgehman@dockhs.org. (215-362-2675)
7. For username or password changes, questions about this system, or login issues, contact Martin Wiens at mdwiens@dockhs.org (215-362-2675 Ext 102) or Darwin Zehr at drzehr@dockhs.org (Ext 616) and we would be happy to help you.
